EDUCATION

Stevens Institute of Technology

Master of Science in Computer Science – GPA: 3.910/4.0

CVR College of Engineering

Bachelor of Technology in Computer Science & Engineering (AIML) – CGPA: 8.04/10.0

Hoboken, NJ

Expected 2027

Hyderabad, India

2021 – 2025

EXPERIENCE

Business Development Intern (AI)

May 2026 – Present

Sport Squad, Inc. (JOOLA)

North Bethesda, MD

- Developed generative, agentic, and embedded AI features, rapidly prototyping and iterating proofs of concept to validate ideas and demonstrate technical feasibility to product stakeholders
- Integrated AI-powered chatbots, recommendation systems, and workflow automation into Shopify applications by collaborating with engineering and product teams to deliver functional prototypes.
- Preprocessed datasets, evaluated candidate models against problem-specific requirements, and optimized prompts while debugging production AI workflows to improve response reliability

Graduate Teaching Assistant – CS 555: Agile Methods for Software Development

Mar 2026 – May 2026

Stevens Institute of Technology

Hoboken, NJ

- Boosted student comprehension of Agile methodologies by 20% on midterm scores, leading weekly office hours and doubt-clearing sessions on Scrum, Kanban, and sprint planning for 40+ students
- Cut student preparation time by 30% by authoring comprehensive lecture notes, study guides, and practice materials across CS 555 course topics
- Partnered with faculty to design assignments on user stories, backlog grooming, and Agile project management, strengthening overall course delivery

Software Development Intern

Dec 2024 – Mar 2025

Tata Consultancy Services (TCS)

India

- Engineered 5 interactive Power BI dashboards for real-time service monitoring and performance tracking, increasing operational visibility by 40% across stakeholder teams
- Accelerated KPI reporting by 50% by designing optimized data models and DAX measures analyzing service uptime, ticket resolution time, and incident trends
- Improved data accuracy by 30% by transforming and integrating multi-source datasets through Power Query and ETL pipelines

PROJECTS

Emoji Detection System | Python, TensorFlow, CNN, OpenCV, REST API

2026

- Trained a Convolutional Neural Network (CNN) with data augmentation to classify 7 emoji categories, reaching 94% accuracy on F1-score evaluation
- Streamlined image preprocessing by 60% by implementing batch normalization and optimized OpenCV transforms for resizing, normalization, and augmentation
- Deployed the model behind an interactive GUI for user-uploaded prediction, delivering real-time inference under 200ms latency

AI Study Buddy | Python, OpenAI GPT-4o, Streamlit, PyPDF2, REST API

2026

- Engineered a multi-page AI study assistant that auto-generates summaries, flashcards, quizzes, and interactive Q&A from uploaded lecture PDFs, cutting study preparation time by 60%
- Designed structured JSON prompts for reliable AI-generated MCQ and true/false questions with explanations, achieving 90% alignment with source material
- Implemented an AI-powered spaced-repetition planner with difficulty-based flashcard tracking and session analytics to personalize study schedules

TECHNICAL SKILLS

Programming Languages: Python, Java, SQL, JavaScript, TypeScript

AI & Machine Learning: TensorFlow, Scikit-learn, Deep Learning, CNN, NLP, Generative AI, Agentic AI, Prompt Engineering, Model Deployment, Pandas, NumPy

Frameworks & Web: React.js, Next.js, Node.js, Flask, REST APIs, Shopify, HTML, CSS

Cloud & DevOps: AWS, Docker, CI/CD, Git, GitHub, Postman, Jupyter Notebook, VS Code

Data Analytics: Power BI, DAX, ETL Pipelines, Data Modeling, Dashboard Design

Databases: MySQL, PostgreSQL, MongoDB

RELEVANT COURSEWORK

Data Structures & Algorithms, Operating Systems, Database Management Systems, Machine Learning, Artificial Intelligence, Software Engineering, Computer Networks

CERTIFICATIONS

Google Cybersecurity [Certificate]

Gen AI Academy [Certificate]

AWS Academy: Machine Learning Foundations [Certificate]
